

ITALUB ATF DX VI

Synthetic Fluid ATF type for transmissions

Product Description:

100% synthetic low viscosity lubricant and high performance, specially developed for all types of automatic transmission (manual or sequential, electronic control, etc.) with or without clutches, requiring a DEXRON VI fluid.

Also recommended for the most recent convertible automatic gearboxes, torque converters, power steering and hydraulic or mechanical systems for which DEXRON III H or DEXRON II D fluids are required.

Always refer to the operating and maintenance manual of the vehicle before use.

Features and Benefits:

Thanks to its specific and exclusive formulation, the product:

It allows lower fuel consumption on cars equipped with automatic gearboxes, reducing fuel consumption friction;

prevents vibrations of the engine flywheel;

protects the ever-larger, compact and loaded gears;

Ensures greater responsiveness of gear changes making them softer and faster;

improves the operation of automatic cold change;

guarantees longevity, better oxidation resistance and higher stability at high temperatures;

Anti-wear, anti-corrosion and anti-foam protection.

Specifications and Approval:

Exceeds requirements: **GM DEXRON® VI, JASO 1-A, Ford MERCON LV**

Typical properties:

ITALUB ATF DX VI

Viscosity ASTM D-445	
cSt @ 40°C	29 – 30,5
cSt @ 100°C	5,4 – 6
Viscosity Index ASTM D-2270	≥150
Pour Point, °C, ASTM D-97	.12
Flash Point, °C, ASTM D-92	>220
Density @ 15°C, Kg/l, ASTM D-1298	≥0,850

Health and Safety:

The data related to health, safety and environmental protection are provided in the material safety data sheets.

The above figures are those relating to normal manufacturing tolerances and do not constitute a specification.

ATF DX III Date Created: 18/01/2013 Last Edit: 17/05/2019
